Chemi Nutra Unveils New Updated Website

White Bear Lake, MN – Chemi Nutra proudly announces that their company website has been updated allowing a simplified and enhanced viewing experience.

Dan Steinman from JaxCore, a web development company based in Ontario, Canada, led the development team to use a variety of advanced scripting tools. This enabled the new Chemi Nutra corporate website to be easier to navigate and also made it viewable on mobile devices.

To view Chemi Nutra's new, updated website please visit cheminutra.com.

Chemi Nutra is the U.S. business unit of parent company Chemi S.p.A., a privately held pharmaceutical and nutraceutical company based in Milan, Italy. Chemi, with cGMP certified manufacturing facilities in Italy and Brazil, is best known in the U.S. nutritional arena for its introduction of phosphatidylserine (PS) and alpha-glycerol phosphoryl choline (A-GPC).

Founded in January 2010, JaxCore.com is a technology company based out of Guelph, Ontario that specializes in advanced web application research and development. We think creating today's web applications is too complex, and requires expertise in far too many different technologies than should be required. JaxCore is developing solutions to this problem on number of fronts.
